Additional Info:

For proper installation procedures, visit the Interlocking Concrete Pavement Institute (ICPI) at www.icpi.org.

See Tech Spec #2 – Construction of Interlocking Concrete Pavements. In addition, ICPI's Guide Specifications provide information for installation of larger pavers, slabs, permeable systems, and using alternative setting beds like concrete, mortar, and bituminous asphalt. ICPI recommends using ICPI Certified Installers, who are trained in paver standards, materials, and techniques.
